## WILBERFORCE MEMORIAL, HULL

## WILBERFORCE MEMORIAL, HULL

To assist in celebrations to mark the 200th anniversary of the abolition of Slavery, Urban Projects were asked to illuminate the Memorial to Sir William Wilberforce in Hull.

The illumination of this monument celebrates significant cultural change in Britain and it is a project we are very proud to have been commissioned to undertake. Campaigns against slavery continue today.

## Key facts and information

The monument is over 100ft tall and has been illuminated using discreet LED based light fittings that will require little maintenance.
